Welcome to Sonata! We are so thrilled you're here

Whether you've been with us for many years, or are new to our office, we want to share with you a little bit about our history, our team, our philosophy and values - and some fun facts, too.

Serving the Broomfield area since 2004, we are proud of our outstanding reputation throughout the state of Colorado for offering cutting-edge non-invasive procedures in a caring and compassionate environment. All of our services are designed to help you "reflect your best" with beautiful, natural, "look like the best version of yourself" results.

ABOUT DR. J

Dr. Lawrence Janowski is the Medical Director and founder of Sonata. His extensive training in the uses of neuromodulators, fillers, threads, neck lifts and other minimally invasive procedures has led Dr. Janowski to become a national-trainer, teaching other physicians and nurses from across the US in the best uses of aesthetic medicine. At Sonata, you get a full-time onsite physician's expertise and careful eye for quality, detail, and safety - a rarity in today's med spa environment.

Originally from the New York City area, Dr. J has been serving Broomfield since 2004.

DR. JANOWSKI HAS EARNED COVETED INDUSTRY AWARDS AND RECOGNITION AS:

Dr. J is a husband, a father, and a talented musician who loves to play piano and guitar. You can often find him playing piano in between patient visits to the office.

THE SONATA DIFFERENCE: OUR CORE VALUES

Education

The cornerstone of our relationship with every patient at Sonata is education. From the first interaction, our highly-trained medical staff spends the time to educate you about your best treatment options. We get to know you with a thorough educational consultation where we analyze your face and skin, and educate you about the latest, most relevant, and most effective treatment options. We also develop videos and blogs with demonstrations of procedures, tips about skin care, and insights into new treatments to keep you updated when you're not in the clinic.

Compassion

We care about each one of our patients - before, during and after your office visit. We work with you to deliver exceptional results, and we respect and honor your feedback.

"I have a lot of respect for
